

# GarageBand 09: Make a Video Podcast

5.

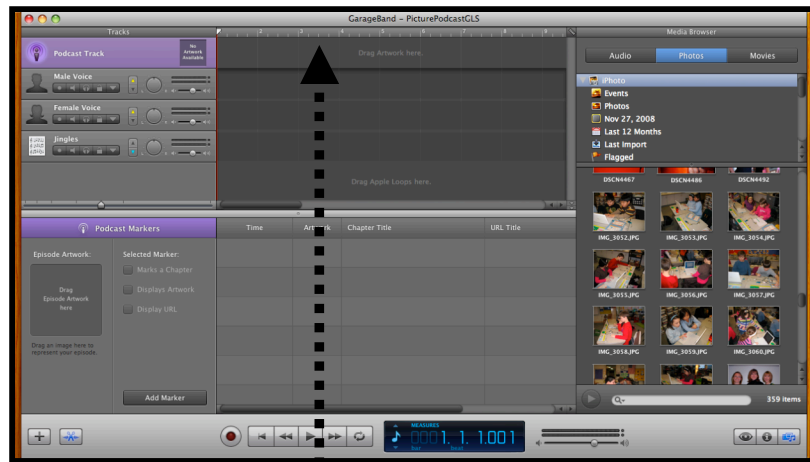

6. Type the name of the project you are going to begin.

7.

8.

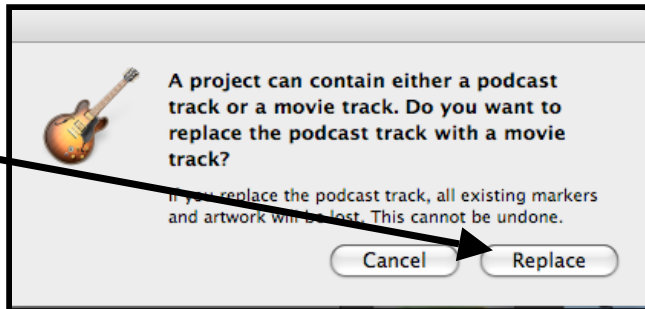

This is what your screen will look like!

## Add Video

1. Save the video you wish to use to your desktop! Click on the video file you wish to add to your podcast. Drag it to the Podcast Track. (It says "Drag Artwork Here")

2. Click on Replace!

3. Your movie will import to Garageband. The audio will come in as a separate track (even if you deleted the audio before importing). If you wish to delete the audio, click on the orange audio track and then click delete.

4. Now you are set to record your voice, add sound effects, or jingles if you wish. Follow the directions on Audio Podcast with pictures to record and edit your voice.
